ZJobApp is **Job App**lication Management Software for employers and recruitment agencies.

ZJobApp provides an **'Online First Interview'** and résumé capture process to provide a faster, cheaper and more successful recruitment experience for recruiters and job seekers.

Key features for Employers and Recruitment Agencies:

Online First Interview	use an 'Online First Interview' to filter candidates. Instead of reading hundreds of résumés, just read the résumés of the top scoring candidates. ZJobApp scores and ranks candidates according to the selection criteria you determine
Résumé Capture	advertise anywhere and link the candidates back to ZJobApp to carry out 'Online First Interview' and capture their résumé and application details
White Label Integration	various options to allow easy integration to your web site and/or your advertising partner(s), including 'White Label' pages
Web Based	no software to purchase, install or maintain. The integration options allow you to add ZJobApp functionality to your web site in minutes. Runs as a Software-as-a-Service (SaaS)
